

## Video Surveillance System Upgrades

Philadelphia, PA  
**Client: Non-Public Schools**

### Project Description:

Under the Pennsylvania Targeted School Safety Grants for Nonpublic School Programs, Admiral Integration successfully completed a comprehensive security surveillance upgrade for this Catholic School in Philadelphia, PA.

The project included the installation, relocation, and configuration of advanced IP surveillance cameras and a new enterprise-grade Network Video Recorder (NVR). Admiral Integration provided full turnkey services—from cabling and mounting to system configuration and end-user enablement.

### Services Provided:

- Installation of eight (8), new high-resolution IP cameras, including panoramic and AI-enabled dome cameras designed for 24/7 full-color monitoring.
- Relocation of three (3) existing cameras to optimize coverage and eliminate blind spots.
- Deployment and configuration of a 32-channel NVR with integrated Power-over-Ethernet and high-capacity surveillance-grade storage.
- Installation of nine (9) new structured cable runs, including Cat6 cabling, conduit, connectors, and mounting hardware.
