

## Multi-Building Security & Access Control Installation

Philadelphia, PA

Client: Non-Public Schools

### Project Description:

This project represents Phase 2 of a two-phase security enhancement initiative funded under the Pennsylvania Commission on Crime and Delinquency (PCCD) School Safety Grant program.

Building upon the foundation established in Phase 1, this phase expands and enhances campus-wide security infrastructure across multiple buildings, delivering a fully integrated and scalable safety solution.

With the completion of Phase 2, the school achieves a cohesive, campus-wide security ecosystem aligned with PCCD Grant objectives.

### Services Provided:

- Installation of outdoor surveillance cameras (fisheye, dome, and multi-sensor) for comprehensive exterior and entry-point coverage
- Deployment of access control systems, including control panels, card readers, and electric strike locks for secure entry management
- Installation of power supplies, backup batteries, and structured cabling/conduit to support reliable system performance
- Configuration, licensing, and full system integration, including project management, testing, and final commissioning under Phase 2 of the PCCD School Safety Grant initiative
